NEW YORK OFFICE: 

MONDAY, SOVEMBER 20, 1866.

WEATHER BULLETIN. Washington, Nov. 19,--For lower Michigan. Generally fair; winds shift-ing to southwest.

### PINGREE'S PUTCHE.

There is much curiosity throughout the state as to Mayor Pingree's political future. Without assuming to speak for him it may be said with some confidence that he will not getire from the field without first being satisfied that the people do not wish him to occupy higher official station than he now occupies. Will be again be a candidate for the gubernational nomination? Without postion he is the most popular and coespicuous republican in the state today. Whether he will make an active campaign for the nomination if his popularity and prominence make it inevitable, depends altogether upon the conditions which shall exist next fall. If Mayor Pingree shall become a candidate for governor next your the field will be cleared so as not to make the contest one between himself and Governor Rich. The governor will have the prestige of having administered his office with integrity and conservative loyalty to the interests of his party and he could not easily be dislodged from public confidence. It is believed that in case Governor Rich desires to succeed himsaif Mayor Pingree will look for senatorlai honors. Otherwise the conditions will be reversed. Governor Rich might become a candidate to succeed Senator McMillan, in which event Mayor Pingree would have a clear field. All this s mere speculation. It simply anticipates future possibilities. In another year political exigencies may develop a state of affairs requiring a complete reversal of present plans. But Mayor Pingree is bound to cut a wide swath.

### NOT ALONE SILVER.

While the silver senators were painting in blood-freezing periods the awful hardships which would be imposed on silver miners if the repeal bill passed they closed their eyes and ears to the hardships already being borne by other iners. The Engineering and Mining Eval Journal calls attention to their sophistry as follows-

The silver miners of the west have certainly had to suffer severely from the panic, and they have not left the rest of the world in ignorance of the fact, as every one knows, but the iron-ore miners of Michigan and Minnesota have suffered in silence a much heavier blow than their silver brethren. The production of iron ore this year will be only shout one half that of last year, and wages, which were then about \$2.75 for miners, are new down to \$1.50 per day for miners and \$1 for other labor-a reduction all around of more than 40 per cent.

To this could have been added that the distress in the northern peninsula of this state has been peculiarly pathetic. The county of Gogebic has spent its last dollar to relieve the necessities of the workless miners. One of the members of the legislature from that district waited on the governor of the state to implere him to call an extra session of the legislature to vote money for the relief of the miners. The prayer was not granted, although the emergency was great, for reasons that will be obvious after a moment's reflection. The impoverished people of that section are making the best of their pitiful circumstances and bravely beating back the wait from their doors. It never on curred to anybody to suggest that freecoinage of iron would relieve the minera It did occur to them that the cause of and the first ray of hope that has illumined their dark prospects since last spring was the election returns of November Z.

### LOW-PRICED WHEAT.

Farmers are inquiring when the price of wheat will be mivanced. It was promised that wheat would go up when the repeal bill passed. Even the election returns have failed to stimulate wheat deals. The answer is a hard one. It is represented that every country in Europe except Russia has had a short wheat crop and that our own country is sky from 90,000,000 to 100,000,000 bushala. This being true, it would seem so though the demand for wheat would quicken and the price is increased. On the contrary the market continues to fluctuate around a very low price. One of the reasons for this may be found in the fact that the production of India has not been taken into account. The evet labor of India produces a bushel of wheat for a few pennies. Millions of bushels are produced. The outlet from India to England and continental Elucope is always open and the wheat of America is thrown into competition with the wheat of India at Mark Lane. That competition is ruleons to American prices. The demagogus attempts to show that the silver question has affected the wheat market. The demagague is never demistant. The relative saleabilfty of wheat and other commodities, not excepting labor, remains the same no matter what the money conditions may he. When one staple is dear, for other stored in Chicago. Philip, maybap, is reason than scarcity, all other staples preparing for a hard winter.

are dear and labor in dearest. Wheat has been at shb-tide for several mouths. What is the condition of other stapies? The reason wheat is low is because it is forced to compete on the English mar-ket with syst-labor-produced wheat of factin. The democrats seem to desire to expose all our markets to the same kind of competition. That is what free trade ites. When it comes the farmors will look even more hopelessly to find the cause for low-priced wheat.

### BAD MATTER WORSE.

Contrary to popular belief the Sun day paper is less open to the charge of breaking the Sabbath than the Monday paper. The Sunday paper is usually well advanced that when mide comes on Saturday comparatively very little work is required to complete it. Not so the Monday paper; the bulk of that paper is prepared on Sunday or prior to midnight of that day. To illus-trate how easily good intentioned persons may strain at a goat and swallow a hippopotamus without a gulp is lifus-trated by an incident that occurred in this office Saturday evening. The Mills revival meetings are advertised in our amusement columns, presumably because the meetings are held in a wellknown place of amusement. Saturday night the man having that advertising in charge issued an order not to run the advertisement in the Sunday morning paper, but to hold it until Monday morning. Now, had the advertise ment appeared yesterday morning all the work connected with it, including the making up of the forms, the stereotyping and printing, would have been completed before midnight Saturday. because the amusement ads were in the second part, which is printed first. Under the order, however, the entire work necessary to prepare the ad for the Monday paper was performed Sun-day night and the workman who put it together was compelled to remain away from the Mills meeting.

Two years ago the legislature of Illinois passed a law to compel weekly payment of wages. A man entered into a written contract to accept payment of wages monthly. He worked several days and then quit. He demanded his wages, which the company declined to pay except in pursuance to the contract. The man brought suit against the company under the law requiring weekly payments. The supreme court has decided that the law is unconstitutional in that it deprives citizens of property without due process of law, holding that the right to contract is a right of property, including the right to fix the price of labor, and the mode and time of payment. Thus another popular fallacy is hurled to the ground.

Mr. KEELY has bobbed up againnot Keeley of the gold cure, but he of the perennial motor, Mr. Keely's mechanism is still unsuccessful. and he brings no new hopes to the stockholders. The object of Mr. Keeley's recent appearance is to say that he will reveal some of his secrets at some future time.

act last night by suggesting that a collection be taken for the benefit of the poor. The sum realized is a splendid tribute to the generosity of the audience. But the query arises, would the hall have been filled had the announcement been made in advance that a collection would be taken?

By a recent decision the trustees of a Buffalo bank are held liable for the amount of the treasurer's defalcation, on the ground that if they had not been negligent he could not have stolen the funds. A man that has no chance to steal will be conscientiously honest, and bank officers cannot too thoroughly comprehend that fact.

To vaccinate or not to vaccinate has become a serious problem in Cincinnati. and the local authorities are waging a conflict against the order of the state board of health. When a child has to live in Cincinnati, it would seem as if so small a matter as a vaccinated arm could not add materially to his sorrows.

CHARLIE MEYERS lives in Clinton, Iowa, and he has a companion named Peterson. Charles offered to stand against a barn forty rods distant and let Peterson shoot at him with a rifle. The invitation was accepted. Meyers is now their distress is threatened free trade, in the hospital, and the fool-killer is on his way to Clinton to complete the job.

> Slows "prominent citizen" declared a few weeks ago that President Cleveland would turn his attention to the matter of appointments as soon as congress had adjourned. Grover should get a move. This is going to be a hard winter, and if ever a democrat wanted solace he wants it now.

Turn has been a great year for the prominent young society man who lives on somebody else's money, and two more of him have just been accested in an Indiana town for burglary.

Ir any man presumes to ask you what you think of the Hawaiian question, cok wise, and tell him that you haven't time to tell him. It will save your reputation as a thinker.

Ornen things being equal the announcement that a lecture or sermon will be delivered "to men only" will fill any hall in christendom full to overflow-

Ocean "Lat." will be deported if Uncle Sam persists in placing her back on the throne. Queer how soon the Kanakas get on to our Chinese Exclusion policy.

Hanny Craws is gratified that our exmeta for October exceed our imports by antwood The same relative showing is being made for November. Good!

PRICEP ASSOCIA controls 12,000,000 of the 17,000,000 bushels of contract wheat

### TALK TO MEN ONLY

(Continued from First Page.)

sant ways, the path is strewn with

sant ways, the path is strewn with rubies.

Second, It is notonly the way in which to enjoy the good things of this life, but it is the way to do good. Unless you spend your life in the effort to build up the singdom of Jesus Christ it is thrown away and eternaly lest. No more beautiful epitaph can be ascribed on a tomb stone than that which sciorus the head stone marking the grave of Senator Freinghuysen of New Jersey: For lifty years superintendent of a Sunday school. Another reason for giving our youth to Christ is that youth is the only time we can learn. As we grow old we lose the power of learning. God gives the youth power to do his work. An unconsecrated person robs God of the best part of his life.

Third, Youth is the only time that

part of his life.

Third, Youth is the only time that you are sure of getting into heaven. It is proved by carefully compiled statistics that only two-thirds of the conversions are made after 20 years of age and only one out of 1,000 after 40 years. It is not only the old and middle aged that die. Children and young men and women are vintims of death on short notice. I have often been sakes if I believe that children will be lost if they die before they give themselves to Jesus. I answer that the laws of several states provide for hanging a boy seven years provide for hanging a boy several states provide for hanging a boy seven years old found guilty of murder. If boys of that age are punishable by the law I would hate to see them die without the hope in God. I don't believe in a death bed repentance. If you don't repent bed repentance. If you don't repent now I have no confidence that you will ever be saved. A death bed repentance is not genuine, it is not sincere.

SULLIVAN BACKS CORBETT. He Thinks He Will Do Up the Eng-

lishman. CLEVELAND, Nov. 19.—Notwithstanding the fact that Cleveland is a strong Corbett town, and money of all kinds is, and has been, offered on him in his coming fight with Mitchell, there has suddenly come to light an unlimited amount of Mitchell money. Speaking of the coming fight, John L. Sullivan said tonight: "I think, barring accident, that Corbett will just about hammer the life out of the Englishman. I have never spoken ill of Mitchell's fighting ability, but I might as well say what I think. When I say he can hit hard and run fast the whole story is told. If he could land on Corbett often enough he might hurt him, but I could not do it, and I am sure Mitchell can't. Corbett on the other hand has strong, long arms, strong, fast legs. Mitchell can trun away from him, and if Corbett can avoid 'in-fighting' he will make a sorry CLEVELAND, Nov. 19 .- Notwithstandavoid in fighting he will make a sorry show out of Mitcheil. I shall see the fight, and in the event of Mitchell win-ning it I will challenge him right there and train for a year if necessary to get into condition."

He Has Killed Three Men. CHARLESTOWN, W. Va., Nov. 19 .-James White, who works upon government lock No. 9, claims to have killed three men in his time. White had a three men in his time. White had a quarrel over a game of cards with two fellow-workmen. Charles Thompson and a man named Barton. Barton borrowed an old musket, gave it to Thompson and told him to shoot the scoundrel. Thompson went to White's shanty, broke in the door, roused him and shot him in the head, White dying instantly. They then returned the gun to the owner and both escaped.

### Krupp's Gun for Sale

WASHINGTON, Nov. 19 .- Krupp's monster gun, which attracted so much at-tention at the World's Fair in Chicago, may be mounted in one of the modern fortifications now being constructed for the defense of New York harbor. It is understood an intimation will be made to the war department at an early date that the gun is for sale if this government wants it. The ordnance authori ties of the army are not much in favor of its purchase, as they prefer guns built on their own designs to those turned out by the Krupps.

Chinamen Will Register. San Francisco, Nov. 19.—Not a Chinese has applied at the office of the collector of internal revenue for registration and none are expected until notice to do so has issued by the Six Companies. It is stated by leaders of Chinese that they will take advantage of the six months granted them and will register. Nothing will be done, however, until the collector save he is ready to receive collector says he is ready to receive them and then the Six Companies will issue the necessary instructions.

### Natural Gas Company Beaten.

LOGANSPORT, Ind., Nov. 19.-Judge Reynolds, after a three weeks delibera-tion, has decided the case of the city against the Logansport Natural Gas company. The decision prohibits the company from collecting rates in excess of those specified in the city ordinance. Natural gas consumers will save at least \$50,000 this winter by the decision. The company gave notice of an appeal to the supreme court.

### Two Fair Buildings Sold.

CHICAGO, Nov. 19.—Contracts have been made for the sale of two state buildings at the fair. Cincinnati, per-haps will buy the Maryland building costing \$20,000, for less than \$1,000. The Montana building has been sold for \$500. A conference has been arranged between trustees of the Northwestern university and the fair directors to ar range for the sale of the Maine building.

\$4,500 Bones and hot, on monthly pay-size of the late of the state of the state of the \$300 KM help party to build. \$400, 600 up to 500-Vacant lole on \$400, monthly payments if desired.

If it were done when 'tis done, then 'twere well it were done quickly,

Right the saving is, whether it applies to an action of kindness or illness, or the roasting of a duck. If you want meats well roasted, when they are roasted,

## Economic Roaster.

Then you will be sure to have juicy roasts, well cooke I fowl or duck without having the trouble ordinarily arising where the old-fashioned dripping-pans are used.

PATENTED AUG. 7, 1803

You do not have to watch and baste your meats when you use an Economic Self-Basting Steam Roaster. It watches and bastes itself. All you have to do, after putting the roast into the oven in an Economic, is to take it out again at the proper time.

The near approach of Thanksgiving and Christmas days reminds us that we must be preparing for them. The purchase of an Economic Roaster will insure a well cooked dinner and a saving to you of many little

P. S.-We will say something to you about Skates
